

Physical Education and Sport Funding at Manor C of E Infant School

Since April 2013, the Government has provided funding for physical education (P.E.) and sport. The funding allocated directly to schools across England is aimed at improving the quality and breadth of P.E. and Sport provision. Schools continue to be free to determine how best to use this funding to increase participation in P.E. and Sport so that all pupils can develop healthy lifestyles and reach the performance levels they are capable of.

Funding 2016-17

In the academic year 2016-17, Manor Church of England Infant School received £8,226. We have used this money to invest in continuing to provide After School Sports Clubs, purchasing new P.E. equipment, developing curriculum expertise and resurfacing our new playtrail area in order for us to enhance the participation and interest of our pupils in sporting activities. We have also taken teams to inter-school sporting events.

How have we spent the money and what impact has it had?

For a fourth year we have joined the New Forest Sports Partnership which has provided training for new staff and planning across the school. The planning is skills based and looks at the children improving some of the basic co-ordination, agility and balance skills which they could then develop and use in more specific games sessions. The planning continues to be used across the school.

The additional funding has also enabled us to continue to run sports After School clubs every night after school for the children. We continue to use the funding to subsidise the parent costs so we are able to offer the clubs at £2 per session. In the last year we have offered Dance with Chantelle; multi-skills, football, Tag Rugby, athletics and tennis with R & R Sports; martial arts with Sensai Dave and Pyjama Drama with Vikki. The clubs continue to receive very positive feedback from pupils and parents and have proved a valuable resource for the school. Many children who have not had the chance to attend sports clubs previously are attending. September 2016 – July 2017, **91%** of children have participated in After School Clubs. We are keen to carry on offering a wide range of clubs every day after school as we recognise the impact that these clubs are having on pupils socially, emotionally and physically.

In order to further enhance the outdoor provision for the children and local community we have invested in a new playtrail and surfacing around our pirate ship and tyres. This has supported the development of children's gross motor skills.

We have replaced some of the old PE equipment and have purchased some additional sports kit for children to wear when representing the school.

Next steps:

We plan to continue to offer After School Sports Clubs at a subsidised rate for all children and hope to provide additional specialist PE training for staff. We also hope to extend our participation in inter school sporting events.
