

# Physical Education and Sport Funding at

## Manor C of E Infant School

Since April 2013, the Government has provided funding for physical education (P.E.) and sport. The funding allocated directly to schools across England is aimed at improving the quality and breadth of P.E. and Sport provision. Schools continue to be free to determine how best to use this funding to increase participation in P.E. and Sport so that all pupils can develop healthy lifestyles and reach the performance levels they are capable of.

### ***Funding 2017-18***

In the academic year 2017-18, Manor Church of England Infant School received £13,062. We have used this money to invest in continuing to provide After School Sports Clubs, providing free lunch clubs, purchasing new P.E. equipment, developing curriculum expertise and resurfacing our pirate ship as well as adding climbing apparatus in order for children to strengthen their upper core muscles. We have also taken teams to inter-school sporting events.

### ***How have we spent the money and what impact has it had?***

We have enhanced the participation and interest of our pupils in sporting activities.

For a fifth year we have joined the New Forest Sports Partnership. Through the partnership our staff accessed training for Real P.E., the Golden Mile initiative and

Tennis Coaching. The impact of this in school has been that:

- all children are engaged in the Golden Mile, children are walking for an extra 10 minutes a day which is increasing their physical activity time
- staff have evaluated and enhanced their Real P.E. teaching in school
- in the Summer Term staff ran a tennis club
- lots of children have participated in inter school competitions - Sportshall Athletics, Football, Cross Country and Tennis competitions. The impact of these competitions has been that the children are motivated about sport and the profile of sport has been raised across the school. Our children really enjoy these events and always try their best.

The additional funding has also enabled us to continue to run sports After School clubs every night after school for the children. We continue to use the funding to

subsidise the parent costs so we are able to offer the clubs at £2 per session. In the last year we have offered Dance with Chantelle; multi-skills, football , athletics and with R & R Sports; martial arts with Sensei Dave and Drama with Helen. The clubs continue to receive very positive feedback from pupils and parents and have proved a valuable resource for the school. Many children who have not had the chance to attend sports clubs previously are attending. September 2017 – July 2018, **64%** of children participated in After School Clubs. We are keen to carry on offering a wide range of clubs every day after school as we recognise the impact that these clubs are having on pupils socially, emotionally and physically.

This year we have also used the funding to provide lunch time clubs free of charge to children. These have been run by R&R Sports and have been used to train the children ready for inter-school athletics and football competitions.

In order to further enhance the outdoor provision for the children at break times, we are using the funding to resurface around the existing Pirate Ship with artificial grass and to add more climbing bars for the children. The impact of this will be that the children will be able to use the Pirate Ship all year round and the climbing bars will increase the children's upper body strength and balance.

In the Spring term, 2 coaches from Totton and Eling Tennis Club delivered tennis lessons to children in Years 1 and 2. These sessions developed an enjoyment of tennis and encouraged children to jopin the school tennis club. As a result several of the children entered in the inter-school competition in June.

In March we organised a Healthy Schools Week and invited a cycling specialist to come into school and lead cycling and scooting workshops with the children. We also invited coaches from R&R Sports into school to lead exciting sports workshops for all children.

We have replaced some of the old PE equipment and have purchased some additional sports kit for children to wear when representing the school.

### **Next steps:**

We plan to continue to offer After School Sports Clubs at a subsidised rate for all children and free lunch time clubs for children. We hope to provide additional specialist PE training for new staff and have organised for a whole school PE INSET day. We plan to continue to develop the sport provision in school and offer children opportunities to compete against children in other schools.
